

National Tracking Poll #200205
February 04-05, 2020

Crosstabulation Results

Methodology:

This poll was conducted between February 4-February 5, 2020 among a national sample of 2197 Adults. The interviews were conducted online and the data were weighted to approximate a target sample of Adults based on age, educational attainment, gender, race, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
